# The original Gentle Leader™ Headcollar

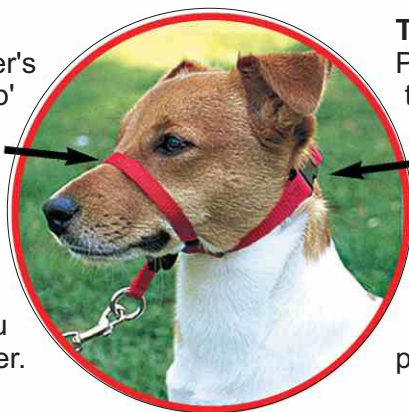

## “naturally better”

First of all, the Gentle Leader™ Headcollar is NOT a muzzle. When fitted properly, your dog is free to open his mouth to eat, drink, pant, fetch, bark and even bite - except when you close his mouth by pulling on the leash.

The Gentle Leader™ Headcollar features two soft nylon straps - the collar portion fits high at the top of the neck, and the nose loop fits loosely and comfortably across the base of the muzzle. Each strap has a distinct and important effect

### The Noseloop:

The Gentle Leader's patented 'Nose Strap' applies gentle pressure in the same way a dog's pack leader would grasp a sub-ordinates muzzle. Your dog learns in his own language that you are the leader.

### The Neckstrap:

Puppies will melt in relaxation when their mother picks them up at the back of the neck. Gentle Leader uses this pressure point to work with your dog's natural relaxation instinct. With this gentle pressure at the back of the neck the dog pulls backward not forward which corrects leash-pulling forever.

Prevents Jumping

Teaches Sit

Controls Barking

Not a Muzzle

Stops pulling & lunging

### "Dogs and Owners Love it"

The Gentle Leader® Easy Walk™ Harness is designed to gently discourage your dog from pulling while walking on a leash. It's so simple - easy to fit, and easy to use. There is very little acclimation time or special technique required.

Unlike traditional collars, the Gentle Leader Easy Walk Harness never causes coughing, gagging or choking because the chest strap rests low across the breastbone, not on the delicate tracheal area.

Traditional harnesses actually encourage dogs to pull harder because of the "opposition reflex". That's the reflex that causes sled dogs to pull against pressure and do what they do. The Gentle Leader® Easy Walk™ Harness' unique front-chest leash attachment stops pulling by steering your dog to the side and redirecting his attention towards you. And, its patent pending martingale loop provides extra leverage for easy, relaxed control and prevents harness twisting and gapping.

#### Quality Features:

- We included a quick snap buckle on both the shoulder and belly straps to make it easier to get the harness on and off your dog.
- Our soft but strong nylon and 4 adjustment points provide maximum comfort and reliable fit.
- The complementary colour of the belly strap makes it easier to identify each strap, while keeping the overall look pleasantly colour-coordinated. You can quickly see which strap goes over the shoulders and which goes under the belly.

# GENTLE LEADER® SPACE LEASH™

## Gentle Leader™ Australia **SPACE LEASH™**

Because we all need  
a little bit of space at times!

# “YELLOW DOG”

*is a worldwide campaign to make people aware that not all dogs like to meet and greet.*

*This could be because:*

*The dog is in training.*

*The dog is nervous or shy with people or other dogs.*

*The dog may be from a rescue group and is being rehabilitated.*

*The dog may be injured.*

**We believe walking your dog should be fun and enjoyable!!**

At Gentle Leader Australia, we respect the needs of all dogs so we have created the “I NEED SPACE” leash to give owners and dogs a way of communicating this to others.

## THE ULTIMATE PUPPY TOOLKIT™

A complete step-by-step guide to raising a happy, well adjusted puppy.

Code **8930000**

### Why you and your puppy need this!

Your puppy has a "golden window" of opportunity. Scientific studies show that birth to 16 weeks is the crucial learning period when puppies can most easily take in new experiences. After 16 weeks of age, this window closes, and it is much harder for dogs to adapt. The Ultimate Puppy Toolkit™ is designed to help you make the most of this very important period so that you can raise the happy, well adjusted dog you have always wanted.

#### PROFILES INCLUDE:

##### **Socialise**

Your puppy has a short period of time to become comfortable with our complex environment. We teach you how to socialise successfully.

##### **Prevent**

Simple steps that ensure that your puppy doesn't develop common behaviour problems which will make him hard to live with.

##### **Games**

A variety of games which are fun, exciting and even relaxing for you and your puppy.

##### **Junior Obedience**

An easy to follow program for teaching your puppy the basics: sit down, stand, come and walking on a loose leash.

##### **House Training**

Clear and simple instructions on how to house train your puppy for the long term.

##### **Poster**

Follow and understand your puppy's weekly development.

##### **Pocket Pal**

Portable guide to lots of fun activities and lessons.

*"There are many good books on modern puppy training but the reason I would recommend 'The Ultimate Puppy Toolkit' first and foremost is that it is, indeed, the ultimate - the best of the best.*

*The wall chart of a puppy's development alone is well worth the price of the whole Toolkit, it would be great if one was on display in every Veterinary surgery in the land. The 6 booklets and the pocket guide are well illustrated, full of great new information and the unique modular format is so easy to follow. The toolkit is an invaluable resource and ought to be compulsory reading for every new puppy owner - as well as for all good dog trainers and good Veterinarians who want to become even better. I would have expected to pay at least double, unbelievably good value."*
